

INTERNSHIP IMPACT MEASUREMENT

Location - Amsterdam, The Netherlands

Type - Internship

Contract - Part-time

Posted on - 28 June 2021

Deadline - 15 July 2021

Starting date - October/November 2021 (flexible)

PROFILE

Max Foundation is looking for an intern to assist in impact measurement. Furthermore, the intern will be the first-line support for the broader priorities of the Amsterdam team.

WHAT DOES MAX FOUNDATION DO?

Max Foundation is a fast-growing non-profit organization created by the initiative of Steven and Joke Le Poole. They wanted to bring something positive out of the loss of their son Max. Our mission is to fight child mortality by providing a healthy start in life for as many children as possible in the most effective and sustainable way. Max Foundation is an organization with an entrepreneurial, enthusiastic, and informal character. Business, transparency and thinking in terms of returns are our core values. Max Foundation strives for efficiency - the maximum value for money spent. When it comes to determining how we work and what we do, we ask ourselves: what is the most efficient and effective way? It distinguishes our foundation from many other charities and that is why our organization owes its growth.

Over the years we developed our unique integrated approach in which we combine the thematic areas of WASH, nutrition and health. We strongly believe in working in partnerships, as together we can achieve more.

We are developing a dashboard with key performance indicators (KPIs) to manage our programmes more effectively. You will support our M&E officer in crunching the data and supporting the country teams (Bangladesh and Ethiopia) in their duties.

MAIN RESPONSIBILITIES

- Support the development of a data visualisation platform (dashboard)
- Generating evidence and best practices from our integrated Healthy Village approach in Bangladesh
- Support the monitoring, evaluation and learning and reporting initiatives for our new Healthy Village Programme in Ethiopia
- Write case studies on beneficiaries
- Assist (with M&E officer and consortium partner M&E teams) on progress monitoring

and reporting

- Monitor developments and update the knowledge base on integrated programming, child health, WASH, nutrition, SRH, and stunting through desk-based research
- Crunch numbers for annual report 2021
- Support in the programme evaluation of Max NutriWASH
- Organize fun teambuilding events at Max Foundation!

SKILLS

- Strong analytic and research skills, and an affinity for data and monitoring & evaluation
- Excellent oral and written English language skills
- Strong interpersonal cross-cultural communication skills
- Ability to prioritize workload, assume responsibility for work, and follow through to completion
- Ability to work independently and in a team setting
- Interest and knowledge of international development / public health
- Experience with R / SPSS and data visualization software such as Qlik is a plus

COMMITMENT

We're looking for a Master's student or recent graduate (at least a Bachelor's Degree) to start at our office in Amsterdam in October/November 2021 and commit 3/4 days per week for a minimum of 6 months.

COMPENSATION

This is an exceptional opportunity to gain experience at an international NGO with an ambitious mission. You will not only gain practical experience and knowledge, you will also have the opportunity to cooperate with our partners and expand your network. A monthly allowance of €200 will be paid based on a 4 day workweek. Travel costs are refunded.
