“We are searching for an energetic and ambitious Manager Partnership and Fundraiser who combines a talent for maintaining relationships with a pro-active approach to new donors”

What does Max Foundation do?

Max Foundation is an ambitious and fast-growing Dutch based non-profit organization founded by Steven and Joke Le Poole following the death of their son Max. Max Foundation believes that no child should die from easily preventable diseases and aims to provide a healthy future for as many children as possible in the most effective and sustainable way. Business, transparency and thinking in terms of returns are our core values. Max Foundation strives for efficiency - the maximum value for money spent. When it comes to determining how we work and what we do, we ask ourselves: what is the most efficient and effective way?

The organisation is growing fast, last year we doubled our income and team and in 2020 we started operating in Ethiopia. Over the years we have developed our unique integrated Healthy Village approach in which we combine the thematic areas of safe water, sanitation and hygiene, nutrition and care. We have reached more than 3 million people with our programs in Bangladesh, Ethiopia, and Nepal. We strongly believe in working in partnerships, as together we can achieve more. We also set up a social water enterprise with a mission to build and operate mini-grids for piped water supply to households in Bangladesh. We provide 24/7 supply of safe, affordable and running water at home. To date our impact has been to connect 1,500 households to our water grids.
